## **K-12 EDUCATIONAL IMPROVEMENT TAX CREDIT PROGRAM**

The NW Pennsylvania NTMA (NWPA NTMA) Education Foundation participates annually in the EITC Program as an Educational Improvement Organization (EIO). As an EIO, the NWPA NTMA Education Foundation is seeking contributions to help fund our various annual initiatives that support education for the local tooling, machining and manufacturing industry. Donations through the Pennsylvania Educational Improvement Tax Credit (EITC) Program will qualify you for tax credits, allowing your money to work twice as hard for you.

The purpose of the NWPA NTMA Education Foundation is to support and promote education in the skills, technology, and knowledge relevant to the tooling, machining and manufacturing industry in Northwestern Pennsylvania. The Foundation directly serves students/individuals in Northwestern PA that are interested in training for careers to support the future workforce of the industry. The Foundation annually supports scholarships to individuals, grants to school districts, and funding to support various programs such as career exploration, RoboBOTS, and other workforce development initiatives.

The Central Pennsylvania Scholarship Fund has been kind enough to accept funds on our behalf this year. Contributions should be made payable to:

Central Pennsylvania Scholarship Fund  
227 Jefferson Ave.  
Tyrone, PA 16686

Please include a letter stating:

“This contribution is designated for the NW Pennsylvania NTMA (NWPA NTMA) Education Foundation as an Education Improvement Organization (EIO). Please forward payment to: NWPA NTMA Education Foundation, PO Box 203, Meadville, PA 16335.”

Thank you for the consideration.

Sincerely,

Chris Minnis  
President  
NWPA NTMA Education Foundation
